2-Substituted pyrimidines

**Abstract** 

10

5 The invention relates to 2-substituted pyrimidines of the formula I

$$R^{1}$$
  $N$   $R^{2}$   $L_{n}$   $R^{4}$   $N$   $R^{3}$ 

in which the index n and the substituents  $R^1$  to  $R^3$  and L are as defined in the description and

R<sup>4</sup> corresponds to one of the formulae

in which Ra, X and Rb are as defined in the description;

and also to processes for preparing these compounds, to pesticidal compositions comprising these compounds and to their use as pesticides.
